

Staddon Heights Golf Club

Est. 1904

Leave A38 at Plympton junction, called DEEP LANE

At exit turn left following Leisure Drive, signposted Brixton & Yealmpton. This road turns sharp right 120 yards after you join it.

This will take you to another T junction. Leave Leisure Drive and turn left towards Brixton & Plymstock.

After 2/3 mile you will drive over yellow warning lines painted on the road. This heralds a right turn signposted Elburton and Plymstock. Follow this lane into Elburton, going straight over the mini-roundabouts you will encounter in the built up area, which will bring you to the main A379 at the Elburton Inn.

(If you miss the lane and end up down in Brixton don't worry. You will be on the A379 – just follow the road back towards Plymouth and you will end up at the same roundabout.)

Go straight across the roundabout and into Elburton on Springfield Road. After ½ mile turn left at traffic lights into Reservoir Road. After 2/3 mile and approaching the top of a hill you will see a bus shelter on your right. Just past this you turn right into Staddiscombe Road, at the Texaco garage. This road will lead you to another T junction, where you turn left, still on Staddiscombe Road. (Big pub called the Staddy on your left)

After approx ¼ mile you will go down hill between stone walls, and then take a right turn into Hooe Lane, signposted Staddon Heights. This road will lead you to the Club around a mile or so later.

DIRECTIONS TO THE A38

Turn left out of the Club. Follow road until you reach a T junction. Turn left. After 200 yards turn right by Staddy pub. Follow this road to Texaco Garage. Turn left.

At Traffic lights turn right. At roundabout straight across passing Elburton Inn on your left. Keep with this lane as it leaves Plymstock and heads into the country. After a mile or so this leads to a T Junction, turn left. Follow this for a mile or so and then turn right – you will see the A38 going over the road ahead of you. If you go past this you've gone too far.

This will lead you to Deep Lane A38 junction
